* Similarity Rating:

1= Profile, pattern, and projection either match or, upon close inspection, are visually similar to the original product. (Candidate for same elevation repair)

2= Good: Profile matches original product. The combination of pattern and projection differs slightly, but generally appears consistent with the original product from approximately 8 ft. (Candidate for full elevation replacement and non-repair of undamaged adjacent elevations. Also may use undamaged panels from elevation being replaced to repair minor damage to adjacent elevations).

3= Fair: Profile, pattern, and/or projection vary somewhat from the original product; however, the general appearance is similar.

SAMPLE ANALYSIS

Material: Vinyl

Pattern: Cedar

Profile: D4DL

Projection: 0.5000
